Ralph—
I am notifying all of the BOT that after our meeting on Thursday Provost Clemens had a meeting/zoom of 25 +/- Sr Assoc Deans and Deans re: graduate student stipends. During the meeting he disclosed in detail the content of our Closed Session discussion on the slate of professors he presented for tenure. He singled out a board member by name for their opposition to the slate and added pejoratives comments on the reason for opposition. He also said that Lee agreed with the board to delay any action till the May meeting and that he was not aligned with Lee on it. This was a deliberate and intentional effort by the Provost to seek support of the faculty for more tenure hires at the expense of the Board and Chancellor wanting more time to gauge the financial realities we confront. I relayed this to Lee Friday—he'd already heard a similar account of the meeting and thanked me for confirming it. This was a brazen breach of trust by the Provost and regrettably, I now doubt his ability to work in good faith with our board. Will discuss further if needed—JP

Thanks for the update Ouch

Thx for RC remarks. I don't know why CC did that but he really burned the board—

Tue, Mar 25 at 10:41 AM

Just tried calling. Sorry about stirring up CD and his apparent call to you last night. I didn't tell him anything that he didn't already know.

I'm in the NCGA on something work related but will be back—

Thank you for the heads up. Will there be a follow up meeting regarding this matter?
Unclear now but will LYK if so—
Delivered

I am notifying the BOT that after our meeting on Thursday Provost Clemens had a meeting/zoom of 25 +/- Sr Assoc Deans and Deans re: graduate student stipends. During the meeting he disclosed in detail the content of our Closed Session discussion on the slate he presented for tenure. He singled out a board member by name for their opposition to the slate. He also said that Lee agreed with the board to delay any action till the May meeting and that he was not aligned with Lee on this. I believe this was a deliberate and intentional effort by the Provost to seek support of the faculty for more tenure hires at the expense of the Board and Chancellor wanting more time to gauge the financial realities we confront. I am very disappointed at this breach of trust.

Perrin just let me know. He said Lee was aware. What's his thought.

Not sure what Lee is thinking but I told him yesterday... I think he now is beginning to realize that Clemens has played him. How does that text read to you because I haven't sent to anyone else: do I need to make it more ominous?

I think it is good and makes sense. My guess is the first question you will get is does Lee know?

As soon as Jim knows he was called out, the better.

I told Jim yesterday😂

3 Replies

Boom!

Good

Hopefully, he hounds the powers that be and LR.

I think thenCC:faculty messaging will backfire as we are being financially prudent and only delayed the vote.

When Clemens called me in January, he said he tried to negotiate a better retreat package from LR and it did not work. I think he is trying to go back to astronomy with the best salary possible.

He's office spacing it.

You were right! I talked to McClure and then talked to Lee to relay what I wanted to do re: notifying the board. He was ok with it, appreciated the call,etc. My impression is that he is fed up with CC but does not have confidence in a good solution...and I am going to help on that—
Glad to hear it. We should work on giving some options...

Pls let me know if there's a good time to talk today or tomorrow.
Mon, Mar 24 at 12:28 PM
Ritch—I'm good now till 1:30 or after 4:30.
I am tied up now. Later today I have a zoom mtg that should end at -5. Ok if I call you when that ends?
Mon, Mar 24 at 4:38 PM
Hey John.
Is tomorrow morning an option for you? Do you have time to talk then instead of this afternoon ?
My meetings are running long then we have a commitment tonight.
Sure, how is 8-10:00 window?
